

Helping Patients Get Back to Living Their Lives

A member of St. Peter's Health Partners and Trinity Health, Sunnyview Rehabilitation Hospital is here to help you get back to doing what you love. Serving children and adults, Sunnyview is the only nationally recognized specialty rehabilitation hospital in upstate New York. In addition to our 115-bed in-patient facility, Sunnyview operates 7 outpatient clinics throughout the Capital Region making recovery and rehabilitation closer to home.

Founded in 1928, Sunnyview Rehabilitation Hospital serves more than 16,000 patients annually from 39 New York State Counties, as well as 14 states in the Northeast. Sunnyview specializes in rehabilitation for patients following major surgeries, accidents and serious illnesses. Key specialties include stroke, brain injury, spinal cord injury, hip fracture, amputation, cardiac rehab, COVID recovery, and respiratory failure from COPD, pneumonia or flu. Each patient is supported by a team of professionals led by a physical medicine and rehabilitation specialist. The team also includes nurses who specialize in rehab, as well as highly skilled physical, occupational, speech and recreation therapists, neuropsychologists and social workers.

Balancing out our offerings, Sunnyview's Wellness Center is a comprehensive fitness center serving the Capital Region. Whether you are recovering from a serious medical issue or looking to stay active, our team includes certified personal trainers and certified exercise physiologists. In addition to fitness equipment, our facility includes a therapeutic pool as well as programs and classes.

Sunnyview is committed to advancing the profession's knowledge about physical medicine and rehabilitation by leading and participating in cutting-edge research, through our James A. Eddy Memorial Foundation Research Institute. Our research has been published in peer-reviewed journals such as, most recently, the Cardiopulmonary Physical Therapy Journal and Frontiers in Neurology-Neurorehabilitation. Sunnyview also operates a community teaching hospital, providing therapy clinicals for students from 18 regional colleges and universities, and physical medicine residencies for Albany Medical College.

One of the best rehab hospitals in the country is right in your backyard.
