Cost

Free

How to Request

Online Application at <https://schenectadyhabitat.org/rampup/ramp-up-application/>

Confidential?

Yes

Additional Notes

Our Ramps are built by skilled volunteers two to three days a week. Ramps are built in the order that the applications are approved. Ramps are built until the winter weather sets in then resumes in the Spring when the ground is workable,

For 2025 there are already several approved ramps. There is a potential that some approved ramps will not be able to be built until Spring 2026.
